

DOCTOR RECOMMENDS

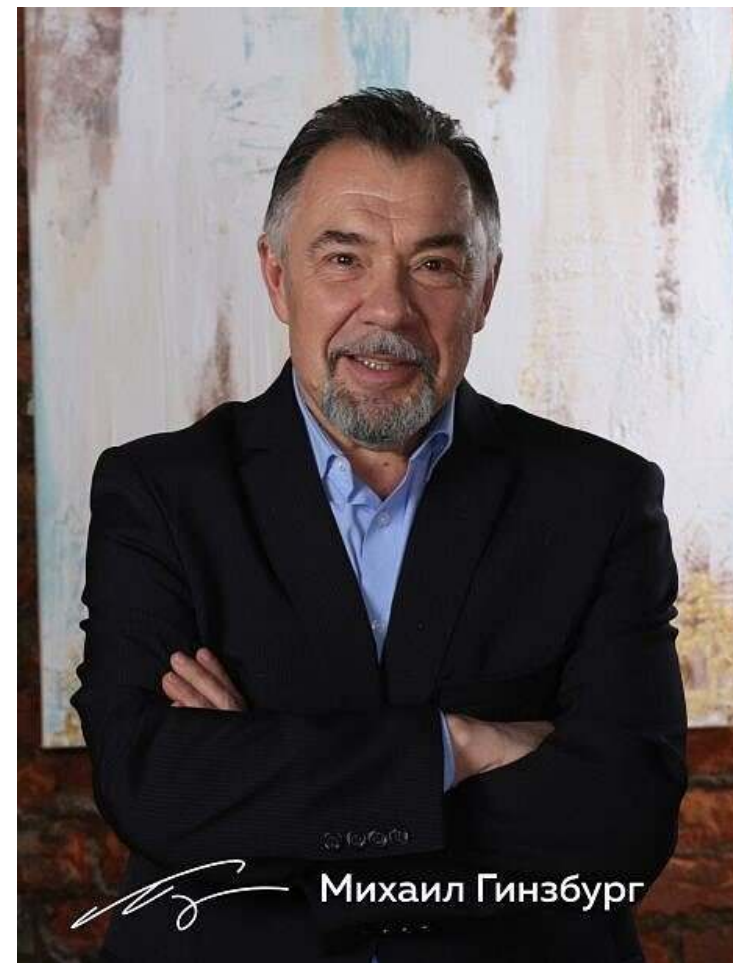

GINZBURG MICHAEL

Practicing nutritionist, endocrinologist, doctor of medical sciences. Author of many analytical articles, monographs and popular science books. He is a permanent expert on television high rating programs in Russia.

During the pandemic, he spoke on television and radio with the topic "The use of kelp for strengthening the immunity of Russians", which drew the attention of our company's team. In cooperation with Mikhail Moiseevich:

1. expert articles with a detailed description of the beneficial properties of fucus, kelp and active biological components of algae were prepared (see on av1918.ru);
2. the effectiveness of the ARKHANGELSKY ALGAE effect is formulated for labels in order to raise consumer awareness of the antiviral, cancer-protective and restorative properties of AB1918 products.

PRODUCT LINE FEATURES

Positioning

Antiviral and oncoprotective algal food additives that improve metabolic processes that strengthen the cardiovascular system and immunity. They are especially relevant during the period of influenza epidemics and pandemics of other viral infections.

The target audience

Men and women, 25+, middle and upper-middle income. For those who take care of their health and strengthening the immune system by natural means.

Line composition

-  White sea algae food crushed kelp DOCTOR RECOMMENDS, 230 g;
-  White sea algae food granulated bladder wrack DOCTOR RECOMMENDS, 230 g;
-  White sea algae food MARINE MIX bladder wrack and kelp DOCTOR RECOMMENDS, 230 g.

MARINE MIX bladder wrack and kelp DOCTOR RECOMMENDS, 230 g

Complex for enhancing immunity MARINE MIX AB1918 has the power of four White Sea algal species: of Fucus and Laminaria (Fucus Vesiculosus, Ascophyllum Nodosum, Laminaria Digitata, Laminaria Saccharina). The health-improving and immunostimulating effect of the product is associated with the high levels of vitamins, minerals and polysaccharides in the algae.

They contain vitamins A, C, D, E and B group, essential amino acids, Omega-3 polyunsaturated fatty acids, polysaccharides (alginate, laminaran, fucoidan) and minerals (iodine, calcium, potassium, selenium, magnesium, iron, zinc, etc.).

Complex MARINE MIX AB1918 with regular use contributes to:

- 🌿 natural strengthening of the immune system;
- 🌿 increasing resistance to bacteria and viruses, and improving thyroid function;
- 🌿 improving the composition of the intestinal microflora;
- 🌿 prevention of the development of atherosclerosis and neoplastic diseases.

MARINE MIX AB1918 stimulates metabolism and prevents premature aging.

Bladder wrack and kelp are algae with proven antiviral, antitumor and immunostimulating effects. They will maximize health gain, protect from diseases and prolong youth.

GRANULATED BLADDER WRACK DOCTOR RECOMMENDS, 230 g

Fucus received the name "Sea Grape" among the people in Russia due to the presence of numerous air cores.

BLADDER WRACK AB1918 is granulated bladder wrack (*Fucus Vesiculosus* and *Ascophyllum Nodosum*), it is a source of good health for the inhabitants of the White Sea coasts. It has the ability to prevent the development of viral and oncological diseases. The antitumor properties of the product are due to the content of the biologically active polysaccharide fucoidan in the fucus. It contains vitamins A, C, D, E and B-group, essential amino acids, Omega-3 polyunsaturated fatty acids, polysaccharides (alginate and fucoidan) and minerals (iodine, calcium, potassium, selenium, magnesium, iron, zinc, etc.)

Fucoidan as part of SEA GRAPE AB1918:

-  reduces the likelihood of tumor formation;
-  reduces side effects from radiation therapy and chemotherapy;
-  improves the condition of the heart and blood vessels;
-  supports the active work of the digestive tract;
-  prevents the development of gallstone disease;
-  normalizes blood sugar levels.

Unique bioactive substances in bladder wrack make this product essential for the prevention of early aging, cancer and viral infections.

CRUSHED KELP

DOCTOR RECOMMENDS, 230 g

Kelp received the name "Sea cabbage" among the people in Russia due to the shape of its wide leaves. Kelp AB1918 is crushed kelp (*Laminaria Digitata* and *Laminaria Saccharina*), it is a source of unique dietary fiber and organic iodine. It stimulates metabolism, improves the condition and function of the cardiovascular system, helps to strengthen antibacterial and antiviral immunity.

It contains Omega-3 polyunsaturated fatty acids, protein, minerals (iodine, calcium, potassium, selenium, magnesium, iron, zinc, etc.), unique plant fibers – polysaccharides (alginate, laminaran, etc.), as well as vitamins A, C, D, E, K and B-group.

Iodine, alginate and laminaran in Kelp AB1918 contribute to:

-  normalization of thyroid function and strengthening of immunity;
-  improving the condition of the heart and blood vessels;
-  prevention of the development of atherosclerosis and hypertension;
-  normalizing sugar levels and lowering blood cholesterol levels.

Laminaria is a unique product presented by the nature of the arctic sea. It stimulates metabolism and improves the condition of the heart and blood vessels. Kelp will help you to prolong youth and improve health.
